Government Engineering College Raipur

(2022-2026)

Bachelor of Technology – Computer Science (SPI-7.54)

Skills

Front-End Development: HTML, CSS, JavaScript, React

Back-End Development: Node.js, Express.js, MongoDB, RESTful APIs

Tools & Platforms: Git, GitHub, npm, Visual Studio Code

Additional Skills: UI Design, CorelDRAW, Adobe Photoshop

Projects

Back-End:

- Real Time Tracker:** A real-time tracker is a tool or system that continuously monitors and updates the status of an object, event, or process, providing live data as it happens.
- Blinkit Clone:** The Blinkit clone project is a scalable and high-performance system designed to manage real-time order processing, inventory management, and delivery logistics for an online grocery delivery platform.
- Khatabook Clone:** The Khatabook clone project is a robust system that securely handles real-time transaction tracking, user data management, and financial record-keeping for small businesses through a mobile-based bookkeeping platform.

Front-End:

- Portfolio:** A portfolio project is a visually appealing and responsive website that showcases an individual's skills, projects, and achievements using HTML, CSS, and JavaScript to create an interactive user experience.
- MovieHub:** It is an interactive, responsive web interface that allows users to browse, search, and view details of movies and TV shows, integrating with APIs for real-time content updates.

Extra-Curricular Activities

- Table Tennis Player:** Captained Computer Science Department and College Team
